PREMIUM UNIVERSAL STAINER

## NIXON PAINTS MOST ADVANCED FORMULA !

Nixon Premium Universal Stainers are high strength, concentrated stainers which can be used to give a wide range of exclusive shades. These stainers can tint Plastic Emulsions, Enamels, Oil Paints and Distempers. They can be used for air drying glossy or matt finish paints for interiors and exteriors. However, they are not recommended for Epoxy, Chlorinated Rubber and allied paints. These are available in a range of twelve attractive colours. Shades prepared from stainers Fast Yellow, Fast Yellow Green, Fast Red and Fast Violet are liable to show shade variation on exteriors.

## INTERIOR VELVET FINISH

### NIXON PAINTS MOST ADVANCED FORMULA !

Nixon Velvet Finish Interior Emulsion is a classic product for the discerning customer, whose choice is always to have the very best. Nixon Velvet Finish Interior Emulsion is made up to top quality acrylic co-polymers, which not just gives it a superior finish and excellent coverage, but a soft silky sheen, giving your interior walls a truly regal finish. Its excellent flow and leveling properties gives it a near brush-mark free finish, which is washable and keeps your walls looking fresh and new for many years.

## NIXON PAINTS MOST ADVANCED FORMULA !

Nixon Luxury Interior Emulsion is a especially formulated paint based on 100% Latex Emulsion for a supreme performance. The unique feature of this paint is that the paint film can be cleaned as and when it gets stained. It provides a durable, tough and flexible smooth finish, which can be cleaned by water mild soap solution or mineral turpentine oil (incase of oil based stain) giving it a very "high washability" property.
